NO. 117, GOVERNMENT ST.

Quesnelle Quartz Mining Co., L'd.

Location of Works, Moxee Creek, B. C.

NOTICE.

AN EXTRAORDINARY GENERAL MEETING of the above Company will be held at the office of the Company, Quesnelle, B. C., on the 11th of July next at 2 p. m., for the purpose of receiving the report of the Directors.

The election of a Board of Directors. The consideration of the advisability of reducing the number of Directors and changing the date of general meetings and also to take into consideration future action to be taken regarding the Company's property.

W. A. JOHNSTON, Secretary.
Quesnelle, B. C. May 24th 1889. m30-td-d&w

OUR CITY FATHERS.

Communications—Reports—Recommendations and Motions.

The usual weekly meeting of the Board of Aldermen was held last evening at the usual hour. Present: His Worship Mayor Grant, Alds. McKillican, Wilson, Vigelius, Harrison, Styles, Goodacre, Kelly and Harris.

Minutes of previous meeting read and adopted.

COMMUNICATIONS.

From J. H. Gray, acknowledging the receipt of a letter of sympathy from the Board. Received and filed.

From F. Joseph Spencer, regarding the importation of immigrants from England and requesting aid from the Board. Referred to Finance Committee.

From J. Cuigdaripe, regarding drainage on Fisgard street. Referred to Street Committee and City Surveyor.

From Ames, Holden & Company, asking for the removal of earth in front of their new premises on Langley street. Referred to Street Committee.

The Clerk announced that a communication signed Ratepayer was in his hands.

A motion was made to place the anonymous communication in the waste paper basket. Carried.

From F. Joseph Spencer for permission to erect a stand on Beacon Hill Park for the purpose of holding divine services. Referred to the Park Committee.

His Worship said that on one Sunday a person made use of the band stand to denounce the city, and a police officer asked His Worship on Sunday last whether permission should be given to people to make use of the band stand every Sunday. His Worship referred the applicants to the Park Committee. It was unfair to the city for people to make use of the band stand on Sundays to denounce a city which was the most orderly on the Pacific Coast. Strangers remarked that everything during the celebration days was carried out without one arrest, and still a lecturer denounces the whole city on Sunday in the public park where people go to enjoy their weekly recreation.

From 12 residents of Putnam street, asking for a drain and the blasting of rock on said street. Referred to Sanitary Committee.

From W. H. Whitfield and others regarding a defective sidewalk on Cook street. Referred to Street Committee power to act.

From J. McDowell and others residents of Chatham street, complaining of defective drainage. Referred to Sanitary Committee.

From residents of James Bay, asking for the construction of a sidewalk on Quebec street. Referred to Street Committee.

CITY DRAINAGE.

The following communication from Mr. Pickering was read, and referred to the Sanitary Committee to report:

WHITEHAVEN, May 21st, 1889.

To His Worship the Mayor of the City of Victoria, B. C.

May it please your Worship.

I have observed in the *Weekly Colonist* of 12th April (which was unfortunately a week overdue here) a report of a discussion at a meeting of your Board of Aldermen held on the previous evening, the 11th instant.

It appears there was some difference of opinion expressed on the sewerage designs we sent out—exception was taken to the depth of the sewers, etc. So far as regards the main outfall sewer at Ross Bay to the foot of Discovery street, it is unavoidable unless you lift by machinery a part of the sewerage which would arise from a growing and important part of your city. This, we considered, would lead the city into permanent expenses in working the system, which was undesirable. Upon a consideration of the whole case we decided that it was more advantageous to take the whole of the sewerage by simple gravitation. This point was settled in conference with your Drainage Committee whilst I was in Victoria in 1886. I have pleasure in stating that the committee entirely fell in with what I conceived to be a most intelligent view of this and other parts of the drainage system.

Then with regard to the "Tributary Sewers." If your Worship will look at the general plan, your Worship will observe that there is a flat district near View street, which I think the early pioneers would find a swamp if not a lake. The natural drainage outlet from this part is ultimately by Johnson street into the main sewer on Wharf street or more correctly with the main sewer as it emerges from Store street into Johnson street. Now, in order to secure good working gradients from the View street district, it is necessary to cut deep in some parts, whilst in some other parts of the city, especially the business parts, there are cellars or vaults below the ground floor level; it is always most safe to have the invert of the tributory sewers some distance below the floor of the cellars, so as to give a fall to the house drains into the tributary sewers.

If this system be not enforced there would be danger of leakage from the sewers into cellars, especially as there is a more or less porous subsoil laying on the basaltic rocks on which your city rests. In confirmation of this view I invite your Worship to observe the bleeding or oozing out of sewerage from the surface of the rock (at present) on the slope between Wharf street and the harbor. Again, in other streets and avenues of the city, it is desirable to lay the sewers well down, sometimes to secure good gradients; at other times to provide for a very probable contingency of proprietors having in the future vaults and cellars under ground (when rebuilding takes place) and where the avenues are wide, a good deal of fall is taken up by the house drains, which should not be less in gradient than 1 in 60. I trust these explanations will be satisfactory to the Board of Aldermen; but I may further invite your Worship to peruse our report which accompanied the drawings, quantities and estimates. Your Worship will see that we stated that perhaps we had kept the sewers on the deep or safe side, but in actual excavation the ground would be well explored in advance, and wherever the depths could be lessened without injuring the working gradients that would be done, thus saving all that was possible. All this, however, on the assumption that the Board entrusts us with the carrying out of the works.

The contractor would be paid on a schedule of prices, only works executed would be paid for. (See specifications).

We have noticed in the *Evening Standard* of the 20th of April a leading article not very complimentary to the Board of Aldermen or ourselves, in which is stated that to carry out our plans would land the citizens into an expenditure of one and a half million dollars, etc., etc. With all deference to the writer, we think we understand our own business, which is to advise the Board of Aldermen honestly and skillfully. With that end in view we are now taking measures to get in tenders from well known and responsible contractors in this country (who are experienced in modern sewerage works) for the whole of the works, and at the earliest date possible we will forward to you one or more tenders for the complete execution of the whole of the works. We regret that this has not been done before this, at the same time we favored the view that the city contractors might

Continued on Third Page.

THE RAILWAY ACCIDENT

Near Armagh, Ireland—Over 100 Persons Killed.

Dublin, June 12.—The railway accident near Armagh this morning is without a parallel in the history of railroading in Ireland. The train carrying the Sunday School excursion bound to the popular little seaside resort of Warren Point, was made up of two sections, and fully 1,200 children and their relatives and teachers were on board. This train, a short distance out of Armagh, was ascending a steep grade, when the engine of the rear section gave out and was unable to draw the heavy train. In some way which is not clearly understood several of the rear cars became detached and started down the steep grade. In a few seconds the cars were going down hill at a terrific rate of speed. The brakes were utterly useless, and from negligence on the part of the guard were without proper attention. The regular train from Armagh followed just behind the rear section of the excursion train, and with the locomotive of this train the detached cars came into

COLLISION WITH TERRIFIC FORCE,

wrecking the locomotive as well as the cars themselves. The scenes at the wreck were heartrending in the ex treme. The rear section of the excursion train, from which the ill-fated cars had become detached, was stopped after proceeding but a short distance, and the passengers, as well as those forward in the second section, soon ran back to render what assistance they could to those of the little children in the smashed cars whose maimed and mangled bodies still showed symptoms of life. The dead and dying little ones were scattered in inextricable confusion among the jagged timbers and iron work of the wreck. The groans of

THE IMPRISONED SUFFERS

mingled in an awful din with the shrieks of their more fortunate companions who stood by powerless to afford assistance. People from the surrounding country flocked to the scene and set to work to remove the victims from the wreck. Physicians were summoned from Belfast and other points to attend to the wants of the injured, while the dead were taken from the ruins as fast as possible and placed in rows upon the grass. The engineer, fireman and guard of the rear section of the excursion train and the traffic manager's clerk were arrested to-day charged with causing the accident, and remanded without bail.

SEVENTY-TWO DEAD RECOVERED.

London, June 12.—The absorbing topic of conversation in London to-day has been the terrible railway disaster in Ireland. At eleven o'clock to-night the dead numbered seventy-two, with almost certainty that others among the large number of injured will die. This makes the disaster the greatest railway horror there has been known in the United Kingdom.

EXCITEMENT AT ARMAGH.

There is scarcely a family in Armagh that had not a member on the ill-fated train, and the excitement in that city is intense. The embankment from which the coaches were hurled by the collision is 70 feet high, and both engines and cars were almost ground to powder by the shock of the collision and the terrible plunge from the embankment which followed.

AN OPIUM AGENT.

San Francisco, June 13.—Arthur Finnigan, who was arrested last night for drunkenness, and in whose possession was a satchel containing over $300 worth of opium, was turned over to the federal authorities to-day. He was identified as a fireman on the steamer Walla Walla, from Victoria, and is waiting a hearing before the United States Circuit Court Commissioner. He tells a fishy story about how he came in possession of the drug.

BAY CITY CHARITY.

San Francisco, June 13.—The executive committee on Johnstown relief fund reported subscriptions still coming in, but slowly. So far $40,000 has been sent to Johnstown, $10,000 to Seattle sufferers and there is still $15,000 on hand.

TO RACE THE VALKYRIE.

San Francisco, June 13.—It is reported that Joseph McDonough, an Oakland capitalist, intends to build a yacht to compete with the English yacht Valkyrie for the America cup. Mr. McDonough states that he has consulted boatbuilders and if their plans suit him he will probably enter the yacht. He would like the race to come off on this side of the Atlantic.

NEWS OF STANLEY.

Zanzibar, June 12.—A letter dated Dec. 2nd, at Ururi, on the south eastern shore of Lake Victoria, Nyanza, reports the arrival there of Stanley with his party, including many invalids. He had lost many of his men through sickness and famine. He had rejoined Emin Pasha and had left him at Unyara on the north-eastern shore of the lake.

WOMEN AND CHILDREN SOLD.

San Francisco, June 12.—The Pacific mail steamer City of Sydney, which arrived to-night from China, brings the following news: The sale of women and children has become of regular occurrence in the famine stricken districts of China. They are not brought to market but sold privately. Women between 25 and 30 years of age are sold from $5 to $10 apiece.

WILL PROBABLY BRING SUIT.

Johnstown, June 12.—It is reported here that a number of citizens whose property was swept away by the flood have been in Pittsburg since Monday looking at the financial condition of members of the Southfork Fishing Clubs with a view of bringing suit to recover damages.

SUICIDE.

Cleveland, Ohio, June 12.—A special to the press from Bowling Green, Ohio, says: Francis James, who was caught in the cellar of a prominent citizen last night, with a dynamite cartridge ready to blow up the building, was this morning found hanging in the jail by his suspenders, dead.

POST OFFICE, ESQUIMALT.

TO THE EDITOR OF THE TIMES:

SIR,—I notice in your valuable paper of the 11th instant an article regarding the delivery of mails at Esquimalt by myself. In reply I beg to state that there is not the slightest ground for such complaint. For instance, Mr. King arrived with the mails, I receiving them. They were large bags; I shook out the contents, assorting them at the office door. The bags containing naval mails never left my sight. I waited for the usual ship's postmen to deliver them to. In the meantime I made up the departing mail myself. In giving the bag to Mr. King containing the return mail it was placed on top of the other bags by me, both he and I standing there. I immediately closed the post office door, still waiting for the ship's postmen, and the moment Mr. King left, not finding the men coming for these bags, I took them all inside, placing them in order till asked for. This is the sum total. But in my opinion Mr. King takes a delight in giving me all the annoyance he can. Why he should do so I am at a loss to know unless it is that my husband being so afflicted and I trying with all my might to fill the place, am a mark for cowards to aim at. MARY HOWARD.

Children Cry for Pitcher's Castoria.

SEATTLE NOTES.

Blue Coated Defenders—Rebuilding the Occidental, &c.

Contributions continue to pour in from all parts of the United States. There is no reason to fear that any sort of personal distress will result from the great disaster.

Members of the National Guard are commended on all sides for their promptness, courage and devotion to duty. The members of the Tacoma and Port Blakely companies deserve commendation equally strong. They have performed faithfully every duty placed upon them and have rendered services which are invaluable. The peace of the city has been maintained as the peace of no other city has been maintained under similar circumstances. Every attempt at disorder was promptly and firmly suppressed by the blue-coated defenders of the law, and order reigned throughout the city before the fire was fairly under control.

Much of the credit for the valuable service rendered by the regiment is due to the excellent management of Colonel Haines, who has been firm and decisive and has handled the men under his command in a manner which cannot be criticized. The people of Seattle will long remember with gratitude the services rendered by the First Regiment and its commander during these days of darkness.

John Collins started fifteen men to work cleaning up about the site of the Occidental hotel. The men are chiefly engaged in cleaning mortar from the bricks and piling them up. Mr. Collins said he would use the old plans and specifications, with but few alterations, in rebuilding the new Occidental. The re-platting of the streets, he says, will not disturb his hotel lot, as he already had eighteen feet to spare on the west end and twelve feet on the east. Mr. Collins estimates his losses by the fire at $365,000, and his insurance at about $65,000. His losses include the Occidental hotel, his residence and his interest in Southern hotel, the Cedar Mountain coal bunkers, the Electric Light Co., and other properties. It is his intention to rebuild the Occidental hotel as soon as possible.

The weather is still warm, and while the dust and smoke are very disagreeable, they are much preferable to the vast amount of discomfort that would be occasioned by a storm of rain.

Preparations for building are being forwarded vigorously. The movement is universal, no one, so far, having shown any weakness, or expressed any fear that the city will not quickly recover its prestige.

Thousands of hungry people pour into the Armory building where with untiring efforts the ladies of the relief corps are still serving food to the needy.

The authorities there are grieved to think that a large number of people who are abundantly able to take care of themselves make a practice of coming three times a day for meals, while the ladies have more than they can do in attending to those who are absolutely without money and have no other place to go.

Commissary Hatfield said yesterday that he sincerely hoped more of the ladies of Seattle would volunteer to come to the Armory to-day and relieve part of the ladies who had been there continually since the day of the fire.

During the fire a man was seen toiling up Yesler avenue with a big box weighing several hundred pounds on a wheelbarrow. He took it as far as Twenty-Second street, where he hid it under a pile of brush. Officers who were informed of the fact went out to recover the goods which they supposed to be very valuable. On opening the box to their great disgust they found it contained a gross of wooden rolling pins.

A woman in Shantytown rolled what she thought to be a barrel of flour all the way from a warehouse on the water front to her cabin. Imagine her surprise when mixing her first batch of bread from the beautiful white flakes to find it stiffen and harden in the pan. It was plaster of Paris.

Four vagrants took a barrel of whiskey that had been rolled into the harbor and towed it to West Seattle. They knocked in the head and, not having any drinking utensils, drank out of the barrel. One burly Irishman pulled his comrades away and putting his lips to the barrel commenced drinking as if he meant to see the bottom before he quit. The other three became angered at his greediness and seizing him by the heels soused him head first into the barrel. When they drew him out he was nearly dead, and they had undisturbed possession of the liquor.

A prominent merchant on Front Street is said to have carried the sign away from his store front while he left his books and papers at the mercy of the flames.

The Gaelic Singer.

Gaelic songs, of which the people are so fond, and which they sing so admirably, are no less remarkable for their freedom from the slightest taint of impurity or indecency than for their native vigor and simplicity, whatever the theme. When we assert that they are always well sung, the reader will probably wonder how this should be possible when we have at the same time to make the admission that even the most delightful singers are, as a rule, utterly destitute of any scientific knowledge of music. Of musical rules and musical terms they know nothing. Song is with them as with the wild birds of their native woods and wilds, an instinct, an inspiration; and it is simply the fact, strange as it may seem, that the native singer who knows not a note of music from the scientific standpoint will render a Gaelic air more musically and better in every way than the most accomplished musician you can persuade to attempt it. The philosophy and motive of a Gaelic song, grave or gay, are so closely intertwisted, so intimately blended with the melody that only a native singer can give them full musical utterance; and better, paradoxical as it may seem, when he is totally ignorant of music as written and taught than when he has had any amount you please of "scientific training." *Gaoil Words.*

THE CHAIN GANG.

TO THE EDITOR OF THE TIMES:

At an early hour to-day I noticed a dozen men walking through this city with clanking chains on their legs. A guard with a double-barrelled shotgun marched behind the men. The days of the galleys and everything pertaining to it should be abolished in all civilized countries, and many strangers are not favorably impressed with the sight of a dozen men marching through our principal streets with large chains on their legs. In the penitentiary the criminals of a darker dye are not compelled to wear chains and it is about time that the Victoria chain gang should be employed in the grounds around the gaol. Besides this prisoners escape very frequently and become a source of danger to people residing in the outskirts.

Abraham Shearer of Canada concluded to run away from his home and wife, when he reached the train the first person he encountered was Mrs. Shearer, who had simultaneously seized with the same notion.

The steamship Zealandia arrived at San Francisco on Sunday last and when 60 miles from port a quantity of wreckage, painted white, was observed, which is supposed to be a portion of the ill-fated steamer Alaskan.

THE VISION OF DANIEL SEVEN.

Synopsis of the Discourse Given at the Gospel Tent Last Night.

The prophet opens this chapter with a statement of the circumstances under which the vision was given, and then says: "The four winds of the heaven strove upon the great sea." Verse 2. The meaning of these symbols is quite evident, if we read in this connection the following verse: "And four great beasts came up from the sea, diverse one from another," and then learn the application the prophet makes of the four beasts. This may be readily learned by referring to verse 17, which says: "These great beasts, which are four, are *four kings*, which shall arise out of the earth." The application, then, of the striving of the winds, can refer to nothing else than war and commotion among the nations.—See Jer. 49: 35, 37.

But how shall we know to what kingdom these four beasts refer? Let us read verse 23 of the same chapter. Thus he said, the fourth beast shall be the *fourth kingdom* upon earth." Then if the other beasts refer to kingdoms, as asserted in verse 17, and the fourth beast is the fourth kingdom, the third beast must be the third kingdom, the second beast the second kingdom, and the first beast the first kingdom. The first universal kingdom, as already learned, was Babylon; the second, Mede-Persia; the third, Grecia; and the fourth, Rome.

By reading the description of the beasts, as given by the prophet, we shall learn something of the character of these four kingdoms. The first beast "was like a lion, and had eagle's wings." A lion, the monarch of the forest, equipped with the wings of the king of birds, could well illustrate the soaring pride of the Babylonian monarch. This could not be shown by the head of gold on the image. The second beast, a bear with three ribs in his mouth, was a fit emblem of the cruel, blood-thirsty character of the Medes and Persians. The silver of the image would fail to show this. Again, the third beast, a leopard, would give a correct idea of the stealthy marches of Alexander at the head of his Grecian forces, who would lover about his enemy, and overthrow him almost before his presence in the vicinity was generally known. The four wings upon his back could well illustrate the rapid flight of that power from one point to another, and the four heads bring to view the division of the empire among Alexander's four generals, after his death.

But the prophet sees another, a fourth beast, that is like nothing in nature. His description of it as follows: "After this I saw in the night visions, and behold a fourth beast, dreadful and terrible, and strong exceedingly; and it had great iron teeth; it devoured and brake in pieces, and stamped the residue with the feet of it; and it was diverse from all the beasts that were before it; and it had ten horns." Verse 7.

The attention of the prophet was especially called to the ten horns carried by the beast, and being solicitous to know the meaning of these, he was told that the "ten horns out of this kingdom are ten kings that shall arise." Verse 24. These divisions of the Roman Empire were effected between the years A. D. 356 and 483, and occupied the territory now maintained by England, France, Spain, Germany, Italy, etc. But Daniel says that as he considered the horns, there "came up among them *another little horn*, before whom there were three of the first horns plucked up by the roots; and, behold, in this horn were eyes like the eyes of a man, and a mouth speaking great things." This, no doubt, means the Papacy.

The subject for to-night is "The Lord's Great Prophecy."

VANCOUVER'S DAY.

Arrangements for Dominion Day Celebration.

At a meeting held on Tuesday by the Dominion Day Celebration Committee, Vancouver, the sub-committees asked for appropriations amounting to $4,500. Of this sum only $2,400 was available, which was disbursed with $800 more as follows: Horse racing $400, boating and rowing $500, fire works $600, printing $250, athletic sports $800, procession $100, reception $350.

The following additional programme was decided upon:

Baseball—First day, 1 p. m., Victoria vs. Kamloops, at recreation grounds; second day, Vancouver vs. Westminster; $200 required.

Lacrosse—First day, 3:30 p. m., Vancouver vs. Victoria; $125 required.

Fire Brigade—First day, 1 o'clock p. m., hose reel race, dry test, trail race; second day, 9 a. m., coupling contest, hook and ladder race.

Lawn Tennis—Open singles, gentlemen doubles, ladies and gentlemen, gentlemen handicap; total $100 in prizes; time not fixed.

Cricket match—Vancouver vs. Victoria; amount required $125. Time 11 a. m. first day; place, Hastings.

A discussion then followed regarding the advisability of restricting the athletic sports to purely amateur events. It was thought generally that it would be far better to bar out all professionals. Still it was, however, talked over and found to be almost impossible to debar professionals altogether.

The programme of athletic sports as recommended was as follows:

On Water Street—(1) 100-yard race, all comers; first prize, $10. (2) 100 yards, amateurs only; cup.

On Cordova Street—(3) 100 yards open; first prize, $10. (4) 300 yards, amateurs only; cup. (5) 100 yards, boys under 15; trophy.

On corner Water and Powell streets—(6) Jumping: Running long jump; running high jump; vaulting with pole; running long jump, amateurs. (7) Putting the stone and tossing the caber.

This programme is subject to changes. The sports will come off on the second day.

SPORTING NEWS.

BASEBALL.

The James Bays and Maple Leafs will play on Saturday afternoon in the Caledonian grounds, near Beacon Hill. The match will be the first held in the enclosed grounds and will be interesting on account of the equal number of games won by each club. The James Bay nine will consist of F. Jackson, pitcher; J. Hannon, catcher; J. Wishart, first base; F. Widdowson, second base; W. Franklin, third base; W. Deasy, short stop; D. Naylor, right field; F. Gouge, centre field; J. Smith, left field.

LONG DISTANCE RACING.

A letter was received a few days ago from McIntyre, of San Francisco, challenging Tom Watson to run one mile in that city for $1500. McIntyre offered to allow Watson $100 for expenses.

Stokes, of Nanaimo, is anxious to make a race with Watson; but lacks the needful. Stokes says the money will be put up by parties in Nanaimo to run Watson a three day race, the contestants to run four hours each day.

HORSE RACE.

The Victoria boatmen are anxious to know whether Tacoma will hold a Regatta tournament on the 4th July. They are also waiting for a list of races at Vancouver on Dominion Day.

Children Cry for Pitcher's Castoria.

REPORT OF CHIEF OF FIRE DEPARTMENT.

New Steam Fire Engine—Waste of Water—Insufficient Apparatus.

The following report recommending the purchase of new apparatus and the general improvement of the fire service of the city was read at the meeting of the Board of Aldermen last evening:

Victoria, June 12, 1889.

To His Worship the Mayor and Fire Wardens:

GENTLEMEN—I have the honor to submit the following report and recommendations:

During the past five months the fire loss was small, which was due, mainly, to the prompt action of the officers and men in responding to alarms.

On Thursday night I left for Seattle with apparatus and boatmen. The assistance rendered was duly appreciated and the lesson gleaned from the experience gained in assisting to suppress a large conflagration showed the danger to which Victoria is exposed with the meagre and ancient apparatus at our disposal.

The steam fire engines, after twenty years service, cannot be depended on, and I would respectfully recommend the immediate purchase of a four-stream steam fire engine from Merryweather & Son, similar to the engines in use in Montreal.

The hand hose reel should be replaced in No. 2 house by a hose waggon, which can be used also to convey fuel to the engines.

A few thousand feet of hose would be of great service, and the Ariel truck is required at once.

The danger of fire in the hotels where no escapes can be found should receive immediate attention and the inspection of buildings, especially in the Chinese quarter, shows a most reckless disregard for the safety of our city. The fire laws are not stringent enough, and it appears that the experience of the neighboring cities of Vancouver and Seattle has no terrors for a number of our citizens.

Another source of danger is the powder magazines near the city; the provincial authorities took this question in hand some time ago, but are not taking any further steps.

The police should ascertain whether the merchants are carrying out the law regarding the quantity of coal oil stored within the city limits.

The main cause of the large conflagration at Seattle was the fact that every one in their endeavor to save property, turned on their taps along the streets where the fire originated. The supply for the fire department was reduced thereby and their efforts to save property were useless.

In this city the supply is very inefficient at all times and it would be of great assistance to the department if every consumer of water in the city should be instructed to turn off their taps at all times, when an alarm of fire is sent in. The supply from the hydrants is not sufficient to reach the roof of a three story building. I have the honor to be gentlemen, your obedient servant,

THOMAS DEASY,
Chief Engineer, V.F.D.

PERSONAL.

Items Telling of Movements of Well Known Persons.

D. Cartmel, at one time of the naval yard, Esquimalt, and who has been in England some time, returning about two months ago to Vancouver, was in the city last night, *en route* to San Francisco.

J. B. Leighton, of Savona, arrived in the city last night, and again left for Nanaimo this morning.

R. E. Jackson returned from the mainland last night.

Mrs. F. W. Vincent returned last night from a visit to Vancouver.

Mrs. Hathaway, who has been on a visit to her son-in-law, Major Peters, for some months, returns east by the C.P.R. to morrow night with her daughter, Miss Hathaway. At Vancouver they will join Miss Laidlaw, with whom they will travel east.

Francis Bouchier will leave for Harrison Springs to-night to spend a week's holiday.

Miss Bertha Gunn left last night for New York, *en route* to England for a three-months' trip.

Miss N. A. Sperry and Miss B. S. Sperry, of Boston, who have been making a tour of the coast, are passengers homeward bound by the Queen of the Pacific.

Mayor J Cowan is bound for San Francisco by the Queen for a brief trip.

L. Braverman, who has been visiting his brother in this city for the past ten days, returns to his home in the Bay City by the Queen.

Thos. S. Gore, Victoria's whilom favorite baritone, is bound to the City of Mexico by this evening's Frisco steamer. *Adieu* and not *au revoir* has been bid him by his friends.

Mrs. Geo. Wise is a passenger for the sunny south by the outgoing ocean steamer.

Sidney Soule, representing the Revere Rubber Company of Boston and San Francisco, is in this city. He was one of the victims of the Seattle fire and lost his wearing apparel on Friday last in the great fire which swept over that city.

Mr. M. H. Cowan (Cowan, Shaw & Co.) was a passenger by to-day's steamer for San Francisco. He goes in the interest of the Alberni Lumbering Co.

Robert Croft, paying teller of the Bank of British Columbia, and wife, left for England on Tuesday morning on a six months tour.

Rear-Admiral Henesge came around from Esquimalt this afternoon to Hon. F. O'Reilly's residence, where a small garden party is being held.

FROM THE NORTH.

A Light Run of Salmon on the Northern Coast—Orderly Communities.

The Sardonyx arrived from Skeena and way ports at 5:30 Wednesday evening. The weather was exceptionally fine throughout. The steamers Maude and Boscowitz were both passed bound north. The catch of spring salmon up to the time of the steamer's departure from Skeena was light, and in consequence the canneries were not very busy. A survey party, who have been operating around Fort Rupert, came down. Everything was quiet and orderly at the various ports, and no news of a startling nature is reported. The passengers arriving down were: Miss Maggie Ross, D. Pratt, Mr. Higman, G. Payne, T. Hodges, M. Leary, T. McLean, J. Josephs, Jos. Beckingham, W. J. Holden, Wm. Eckford, W. F. Stevens, A. Stevenson, H. Harper, J. M. Dudley, M. Campbell, T. E. Woolrich, E. Johns, A. E. McKay, A. J. Joule, T. Verder, and 28 steerage.

A passenger by the steamer Sardonyx from Nass river states that D. F. Fee is engaged with a number of workmen in the construction of a large cannery and wharves at Nass harbor. The completion of the work will occupy about three months time.

At A. J. McLellan's cannery 250 cases of spring salmon had been packed. The run of spring salmon was light. On the Nass river the sockeye run commenced last Saturday.

The canneries are prepared for a large run during the summer months.

The Telegraph.

The telegraph line was in trouble to-day, north of Nanaimo, and up to 4 p. m. no dispatches had been received in the city. For this reason we have no telegraphic news.

THE DAILY TIMES

PUBLISHED EVERY LEGAL AFTERNOON.

By the Victoria Times Printing and Publishing Company, Ld.,

A MAINLAND WHOPPER.

As ELI PERKINS said of a poor speech to which he had once listened, "it was so poor that it was really good;" so with the mendacity of the News, it is so monumental as to be a subject for admiration. It is useless to argue a question with a journal on which the mantle of ANANIAS has evidently descended. We can only lay back and goad it occasionally as it cleverly adapts itself to the Robsonian phases. THE TIMES had discussed the irrigation question before the News was born, and regards itself as largely instrumental for the little progress that has been made. So far as the commission is concerned, the News has forgotten that there was a commission, consisting of Mr. McKAY. That gentleman took a tour through the interior and reported favorably. We never heard that he made a minority report. It was on his report and under his supervision that the Government shortened the distance between Mr. MARTIN's ranch and the antipodes by a little over one hundred feet. This magnificient instance of human industry, rivaled only by the bottomless pit, reflects great credit on the executive ability of the Government and speaks volumes as instancing the wise discretion of the journals which have been unable to find fault. The Colonist, not overly shrewd in its arguments in support of the Government, was far too shrewed to commit itself on well boring while the House was in session last winter. Never an opinion did that paper express on the subject. This dangerous stultifying job was left to mainland journals. We reciprocate the News congratulations on our conversion to its views, but we wish to explain to the public right here that the fact of our being in its company does not imply that we are prepared to ape the facile mendacity and the plastic quality of adaption to Government inconsistences which are the distinguishing characteristics of our Vancouver contemporaries.

SINGLE TAX.

We are not sure whether we are acquainted with single tax or not, but we understand it to mean that the government shall own the land and that the people shall be taxed for the use of it. This is, in effect, the principle we have heard laid down by local exponents of the doctrine, and if the definition is erroneous we then have not yet grasped the subtleties of the theory. To put the meaning of single tax in another way, its grand object is to equalize the burdens of [taxation, to compel land lessees to pay taxes in proportion to their holdings, a feature which under the present system of land ownership is evaded. By equalizing taxation, that is to say, making it compulsory on every land lessee to contribute taxes in proportion to the value of the acreage he controls, it is hoped to minimize land holdings, which is to say, that no man will undertake to hold land which does not fetch him profit, thus throwing open for the world to utilize millions of acres which are now locked up by monopoly. This is the system, as we understand it, which GEORGE would employ to obviate poverty; this is the plan by which he hopes to alleviate the ills incident to the principle that that which a man honestly acquires is his own. This plan sounds well. We like it. We subscribe to it in our heart, but unfortunately we cannot subscribe to it in our head. The faculty of acquisition is normal and irrepressible, and there is no species of acquisition more desirable than land. It is the only really safe investment there is. It is the bulwark of business, the only sure security for money loaned. Destroy land ownership and you paralyze finance. Banks could not exist, nor could railways be built. No great enterprise costing millions of dollars would be practicable. Land having no virtue as a feature of investment, energy must contract to the simple effort of getting bread and butter, for energy produces surplus and this surplus must be placed in such a way as to be secure against the casualties which befall personal property. If it were possible to eliminate selfishness from the human breast, single tax would work, but as selfishness is as inherent in humanity as the love of life itself, it must be manifest to anyone who can reason that any system of policy opposed to it cannot be made operative except by the exercise of self-control, almost, if not quite, superhuman. Our present land system is the outcome of character, the result of the progressive instinct, and to inaugurate a system opposed to these fundamental causes of all human action would be as fruitless as an attempt to check the ebb and flow of the tides. Institutions do not come to a people in a chunk. They are the effect of causes originating in temperament or necessitated by environment. They exemplify the closest approximation possible to our wants and our aims. We adopt institutions. We do not concoct them and then adapt ourselves to them. An institution is the child of our wants. The State of California, about ten years ago, adopted a new constitution entire, and she has been tinkering at it ever since to mould it to her requirements. The constitution of the United States has been amended sixteen times in a hundred years. The English constitution is the product of more than a thousand years, being the slow adaptation of needs to necessities. Hence, believing as we do that institutions are but the product of our wants, how shall we presume to adopt the sweeping innovation of GEORGE, an innovation which would shake the financial world from centre to circumference. It matters not the honesty of GEORGE's convictions nor the beneficence of what he proposes so long as it is not in touch with the instincts of society it cannot be made to subserve a useful purpose. The secret of happiness lies in being honest, and if under such institutions as ours we cannot muster up enough honesty to correct abuses, how shall we be able to live up to GEORGE's transcendentalism. GEORGE proposes to effect reform without first considering that reform is the child of honesty. He proposes to institute land reform as the prohibitionists propose to attain temperance reform. This is a mistake. The moral nature of man must be corrected first, and reforms are the natural sequence. HENRY GEORGE is an able man, and the reform he proposes is a good one, but he does not take into consideration the moral revolution he must first effect before he can put his reform in practice. Where the concrete conditions of society are the direct effect of the abstract or moral conditions of society, it stands to reason that all concrete reforms must primarily spring from abstract or moral reform. The land reform, as proposed by GEORGE, is not a subject to be handled as a man or a community would a grant of land It is not a local, but a national transaction. It entails the elucidation of the philosopy, not of finance alone, but of motives inherent and prompted by environment. We do not find it a question of politics, but ethics. It entails the abandonment of selfishness. The great trouble with the Georgeites, they have never studied anything but Georgeism, and they forget that in advocating it they are prompted by the same selfish motive which actuates the world to strive to better its condition. They reason without taking into consideration the ifs and ands, and it is because of this circumscribed view that we recommended the purchase of the Sandwich Islands where they could test their philosophy without disturbing the foundations of society. Georgeism may be practicable, but in our opinion, if it should go in operation to-morrow, intrigues would be set on foot the day after, which would, if carried into effect, seriously modify the conditions it involves.

THE GOVERNMENT AND COMOX.

The Nanaimo Courier, we are pleased to see, is calling public attention to the criminal neglect shown by the government of the district of COMOX. Some time ago THE TIMES discussed the condition of the roads, price of land and kindred grievances in Comox, and was punished somewhat severely for having the temerity to advocate the cause of the struggling settlers. But THE TIMES was nevertheless right in its contention, and although it failed to receive the support which it ought to have received, and, for causes which need not now be discussed, was adjudged guilty of libel, the truth of its statement has never been impugned. The Courier simply reiterates what THE TIMES said nearly a year ago. The settlement is still allowed to shift for itself in the matter of bridges, roads, and schools. The expenditure by government is so small as to be entirely useless, and the roads are so bad that life is endangered.

"Rotten bridges, over which a man dares not ride his horse, but is perforce obliged to drive the animal some distance ahead, so that in event of the poor brute falling through into the river below, his master might stand at least a chance of escape. Ferries, with their irritating delays and uncertainties, must be used, because roads required in the most urgent manner are not made. There is at least one locality where a number of children must of necessity stay at home, no matter how much against their parents wish, because, forsooth, we are told that the 'nearest school house is *seven miles distant*.'"

This is certainly a deplorable condition for the "best agricultural district" on the island to be in. Alberni, which gave promise at one time of becoming a populous and prosperous community, is being slowly but surely strangled by the Government. Settlers have left as fast as they could procure titles to their homesteads, and dissatisfaction prevails throughout the whole district. Comox is less isolated, and will survive the indifference and neglect that is depopulating the west coast. But although it cannot be killed by Robson's stupidity or the Premier's unfortunate inability to comprehend the requirement of a people with whom he has nothing in common, Comox may say, has been already—badly wounded. Its progress during the past year has been slow. Settlement has almost ceased, and why?

The Courier says that Mr. HUMPHREY, the representative of the district in the Legislature, is to blame. Is our contemporary sincere in making such a charge? Assuming that Comox was unrepresented in the House, who would be blamed? It may be convenient to make Mr. HUMPHREYS a scapegoat for the Government, and it is, perhaps, what might be expected from a weak-kneed newspaper, but it is not honest. It will deceive no person. The Government—the most corrupt in the history of British Columbia—ignores the claims of every district that does not return slavish supporters to the House. Robson and his wax-minded colleagues would not personally bribe the electors, but collectively, as dispensers of public moneys for public works, they are dishonest, vindictive, and scandalously partizan. They attempt to buy the constituencies, and sometimes succeed, by granting or refusing appropriations as party circumstances may decide.

WHAT WOMAN CAN DO.

We do not wish to be thought premature, nor do we desire to stimulate hopes which, if realized, might produce veritable dead sea apples, but we cannot close our eyes to the fact, nevertheless, if reports be true, and there is no reason to doubt them, that in the vocation of type writing, conditions are negendered, so to speak, which are not down on the bills, and which, in the hands of designing persons, may be made productive of valuable returns. In this connection we have no reference to the callow youth with a strong penchant for hair oil and standing collars, who is employed to manipulate the Remington or Caligraph. We are thinking of the young lady type writer, she under whose deft fingers the keys, responsive to their touch, translate undecipherable chirography into legible print. This is the goddess we have in mind, and as a product of the last decade she is a worthy subject for any pen. It is not that she need be phenomenally expert to turn her vocation into valuable account. Her great prerequisites are a set of taper fingers, a lithesome waist—to borrow an expression from some poetess of passion—a comely face, a pair of liquid beaming eyes, and a wealth of dark brown hair. Possessed of such charms as these, with capacity for light, interesting chatter, our young lady type-writer need not regard the more practical features of her vocation as essential to success, and indeed she can make up her mind, if she has not already done so, that unless her employer is a second edition of ST. ANTHONY she will either succeed in marrying him, or, what is better, involve him in a case of breach of promise, of which she will be the substantial gainer. Since the introduction of the type-writer, Cupid and cupidity both linger on the threshold of business offices, and answering to the physical charms we have just depicted we anticipate the history of the coming young lady type-writer, if not with apprehension, at least with a good deal of curiosity. The law of compensation, no loss without some gain, is being profoundly exemplified in the introduction of the type-writer as a feature of business use. Hitherto the royal road to matrimony converged on the public school. Our goddess, crammed with units and tens, and fairly conversant with syntax, found in school teaching a prologue to Hymen. But such is the capriciousness of human nature, such its unceasing hope and eternal hankering for novelty, that school teaching has become a species of a chestnut. The boys do not take as kindly to the little pedant of the village school as of yore. She is no longer a piquant subject for a flirtation. The young man of the period is given over to the worship of strange gods. But, lo! just as the school marm is become obsolete the type-writer comes in vogue, a picturesque feature is added to the business office, and the law of compensation is exemplified to the letter. And what are our cousins and our aunts, and shall we say our wives, going to do about it. How will they be able to banish this "little Corsican," of amatory conquest from the business office. Our impecunious goddess must be given employment though she break a hundred hearts. Shall she be required to give bonds against the exercise of her charms? Alas no, love is not bound by such sordid conditions as these! Laughing at bolts and bars, vaunting high over social restraints it will dominate where the type-writer clicks whatever the conditions precedent. And, yet, there must of necessity be a kick. Sweethearts and wives will not endure this upstart. They will not be harrassed with the thought that husbands may elope and lovers prove recreant. Not long ago a man left a wife and three or four small children for his type writer, and Miss HUMBEL has just been given a verdict of $4,000 and costs as a recompense for lending a willing ear to a tale of love from her employer. Would it not be supposed that our girls should shrilly protest against the goddess who is supplanting the callow youth with the hair oil and standing collar. If she does not it will be strange. We look for the social ostracism of the feminine type writer.

EDITORIAL NOTES.

A good deal of fun is made of Elliott F. Shepard, proprietor of the New York Mail and Express; but when it comes to practical philanthropy he and his family are not sluggards. Their names went down on a list for relief of the sufferers in Pennsylvania last Monday, as follows: The Mail and Express, $5000; Mrs. W. H. Vanderbilt, $3000; Mrs. Elliott F. Shepard, $2000; Miss Edith Shepard, $100; Miss Alice V. Shepard, $100; Elliott F. Shepard, jr., $100, Mrs. Marguerite Shepard, $100; making a total of $10,400.

Artesian wells have proved of immense advantage to the dry district of California, and have been worth millions there to fruit-growers and others. The natural formation of the earth will indicate where such wells can be made to work, and our Eastern country should, in course of time, develop capacity to produce them. At Hepphet the people have been trying to work up such a project and it is finally left for the town council. A company of citizens will be far more likely to succeed, and it is important that the project shall be pushed, if only to decide if artesian wells can be secured in the Columbia basin. Senator Stanford is confident that the vast arid district, extending from Mexico to British Columbia, with an average width of 1200 miles, can be redeemed and made wonderfully prolific. His plan is irrigation by some means, either artesian wells or by reservoirs and canals, or by both. The interior region, lying between mountain ranges, should be favorable for artesian wells, and if they can be made available the result will be that the arid region, now known as desert, will be homes for millions and wonderfully productive.

Abraham Lincoln once made a joke about the weakness of his secretary of state. "I think you must be a member of the Episcopal church," he said to a visitor. "You swear so much like Seward."

AYER'S Sugar-Coated Cathartic PILLS.

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them, with good effect, in cases of Rheumatism and Dyspepsia.—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.—Theodore Esling, Richmond, Va. ††

ROYAL HOSPITAL PROPERTY

FOR SALE BY TENDER.

PURSUANT TO AN ACT PASSED AT THE last session of the Legislative Assembly of British Columbia, entitled "An Act to authorize and facilitate the sale of the site of the Royal Hospital, with the buildings thereon," the Directors of the Royal Hospital invite sealed tenders for the purchase of so much of the lots known and numbered on the official map of Spring Ridge as Sections 24, 25, 26 and 27 Spring Ridge in the City of Victoria, as is authorised by the said Act to be sold, being the present site of the Royal Hospital, with all improvements thereon, and containing five acres, more or less.

Tenders must be accompanied by a certified bank cheque for one thousand dollars; the balance of purchase money which shall be payable as may be agreed on, shall bear interest at the rate of 5 per cent. per annum, and shall be secured in a manner satisfactory to the Directors.

For Plan of Property and further particulars apply to J. Stuart Yates, Hon. Secretary, to whom the tenders marked "Hospital Site Tender," must be addressed and sent in on or before 12 o'clock noon on the 21st day of June, 1889.

The highest or any tender not necessarily accepted.

J. STUART YATES, Hon. Secretary. JOSHUA DAVIES, President.

Continued from First Page.

have (under our surveillance) executed the works.

On the 16th April we got your cable-gram, and replied back we were willing to carry out the second part of the original offer. We are not builders or contractors. We would be putting ourselves in a false position were we to engage to construct the works for a given sum. Our proper sphere is to protect our employers and to see that works are properly carried out; at the same time to see that justice is done to a contractor; in short, to stand between the corporation on the one hand, and the contractor on the other.

Reverting back to our obtaining tenders here, this will be attended with some expense, and it is unauthorized by your Board up to the present, but we did not see any other way of settling the matter, in the face of statements that have appeared from time to time, both in the reports of public meetings and otherwise, as to the cost of carrying out our plans. We, however, leave this matter in your hands to reimburse us if your Board of Aldermen assent to it.

I wish I could be in Victoria a short time, in that case I feel sure the objections to our scheme, and to any scheme of good drainage, would soon disappear. In the case of your city the combined system is alone capable of giving satisfaction.

If I had any assurance that my assistance at this juncture would be acceptable to the Board of Aldermen, I would make a journey to Victoria and remain there a month or so on payment to me of little more than expenses out of pocket, which I will put at £130 sterling (one hundred and thirty pounds), with a view to clear up any doubtful point so as to get the works on the way.

With best wishes for Victoria and the province, and my dutiful respects to your Worship.

I am yours faithfully,
RICHARD PICKERING.

pprc. Pickering & Compton.

P. S.—I had an opportunity of going over the Manchester ship canal works, now in progress of execution at about a cost of seven million pounds sterling, on Friday last, on the invitation of the company and their engineer. It is about half way in completion; it will take three years yet to complete the works. There is about 17,000 workmen employed and about £500,000 worth of machinery. Ordinary soft excavation is done by steam machinery at about three pence per cubic yard. There has been more delay and discussion in Victoria over the proposed drainage than there has been on this great work between Manchester and Liverpool. R. P.

ACCOUNTS.

Accounts in connection with the recent election were read and ordered paid if found correct.

LAND TRANSFER.

Ald. Harrison moved, seconded by Ald Styles,—"Whereas, it has been stated through the public press, and in the Commons at Ottawa, as well as in the Legislature of this Province, that it is contemplation to exchange lands in the Peace River country for lands along the line of the Canadian Pacific Railway; and, whereas this Board is of opinion that said exchange cannot be made under existing circumstances without seriously injuring the prospects of the construction of a second trans-continental railway through this territory, and, consequently, inflicting serious and permanent injury on this city and province. Therefore, be it resolved, that this Board is of opinion that the Provincial Government should refrain from taking any steps to bring about said exchange during the holding of office of the present Government, or without an appeal to the country having first been made."

The mover said it was not necessary to make any remarks. The hands of the members for British Columbia in the House of Commons at Ottawa would be strengthened.

Ald. Harris said he would like to know why there was any necessity for the motion. There was no call for such a resolution and it would be out of place to pass it without any reason.

Ald. Kelly said in reply to Ald. Harris, that the Board represented the people of Victoria. He was sure that the City of Victoria was not in favor of exchanging the lands. He was in favor of Victoria first and all the time.

Ald. Wilson considered that there was always fire where smoke was seen. The exchange of lands was surely under consideration. Much had been said about the proposed land deal in the press lately. The council should do all they could to prevent the exchange of land such as was proposed and which would materially injure the city's interests. He would support the resolution, which had the "true ring in it."

Ald. Harris again enquired where Ald. Harrison got his information. Was it only what he had seen in the newspapers? He was informed, and he was inclined to believe, that there was nothing in it at all.

Ald. Harrison said the board as the representatives of the people should not stand by and see the land exchanged where a second transcontinental road could only be brought through, for a lot of rocks up in the mountains. The province already had the minerals under this land, and didn't need any more.

His Worship said that the question is the exchange of what is known as the railway belt for lands in the Peace river country east of the mountains was dealt with in the Legislature two sessions ago, when the House expressed the view that it would be desirable to make such exchange; but the conditions have altered since the decision given by the Privy Council. At present the position of owners of mineral lands in the belt is a most unsatisfactory one, as titles to such claims cannot be obtained from either government. He said that he was not aware that anyone on behalf of the Dominion Government, not even the Minister of the Interior, has expressed a wish to make such an exchange. Mr. Mara, M.P., during the last sitting of parliament, had urged the exchange, but did not receive any satisfaction from Mr. Dewdney. His Worship said that while he did not wish to state publicly his opinion on the subject, he agreed with that part of the resolution which set forth that the question ought to be submitted to the electors before the government should make the exchange in its present phase. He was of the opinion that too much had been made out of it, as the nearest lands in the Peace river district, east of the mountains, to the railway belt to be set aside in aid of the construction of the Canada Western, is from 200 to 250 miles, which can be verified by anyone looking at the map.

An amendment to lay the motion on the table, was lost and the main motion was carried by a majority vote of the members present. Ald. Harris and Goodacre voted with the minority.

LOAN BY-LAW.

A report from the Returning Officer submitting the result of the vote taken on the Loan and Tramway By-Laws was read, adopted and spread on the minutes.

On motion of Ald. Vigelius the Street Railway Guarantee By-Law was read a second time.

NOTICE OF MOTION.

Ald. McKillican gave notice of an amendment to the by-law regulating meetings of the Board. Read a first time.

Ald. Harrison moved the first reading of the Revenue By-Law.

A By-law to provide for the remuneration of the Mayor was read a second time. The sum of $2,000 per year was inserted in the blank space in the said by-law.

A communication from the City Barristers re Commercial Travelers was read and a motion requesting the legal advisers to attend at a special meeting on Friday night was carried.

Williams & West, contractors for the Rock Bay bridge, submitted plans of a draw for the said bridge. Laid on table.

REPORTS.

From Street Committee submitting a report recommending that tenders be called for grading and gravelling St. Catherine street from Beacon Hill to Marvin's Hill. The committee recommended that several box drains be constructed and that work on Rock Bay bridge be proceeded with at once.

Ald. Styles said he signed the report, but would inform the Board that the span would be only 24 feet wide and it was the intention of owners of property in the vicinity to oppose the construction of the bridge unless the spans were of the same width as the spans of the present bridge. Report adopted.

From the Chief Engineer of the fire department recommending certain additions to the apparatus of the fire department. Referred to Fire Wardens.

Ald. Kelly said he was an old fireman and knew as much about the fire department as any one in the city. A larger main is required on Yates street which would supply six streams of water. The tanks are useless after an hour's pumping. Larger mains are required more than an engine.

Ald. Wilson, chairman of the Fire Wardens, said an engine was required immediately and a Merryweather engine similar to the four stream Montreal engines should be purchased at once. Only to-day the speaker was in a locality where a large conflagration might occur at any time. At Seattle but one engine pumped for ten hours and that engine was the Merryweather. Ald Wilson was in favor of purchasing a Merryweather engine at once. Regarding the Ariel truck it was under consideration and would be purchased as soon as possible.

Ald. Styles considered that it was time to have a new fire engine in this city and a Merryweather engine to be the best.

Ald. Harris moved that the Fire Wardens be empowered to purchase a Merryweather steam fire engine and 2000 feet of hose. Seconded by Ald. Wilson and carried.

Ald. Styles moved that a letter be addressed to the militia department at Ottawa requesting the removal of the powder magazine at Beacon Hill Park. Seconded by Ald. Goodacre and carried.

AID TO SEATTLE.

Ald. Kelly moved that the sum of $1000 be donated by the corporation towards the relief of sufferers by the Seattle fire. Carried.

STREET SPRINKLING.

Ald. McKillican said the Water Committee considered that the using of fresh water on the streets should be discontinued. An engine to pump salt water into the two sprinklers would cost $240. The using of water by the sprinklers would diminish the supply even after water is furnished through the 16-inch main.

Ald. Harrison said the Water Commissioner reported that a good supply of water would be furnished in a few weeks which would do away with the necessity of pumping from the bay.

THE CAPTURE OF AH HEUNG.

A report was received from Supt. Sheppard stating that Chau Ah Heung, the Chinese murderer for whose detention a reward of $100 was offered by the Mayor, was found by Mr. Wm. Barnes, who caused his arrest and was therefore entitled to the reward. The report was adopted, and the reward ordered to be paid to Mr. Barnes.

The Board then adjourned.

CITY AND PROVINCE.

—Why should a physician be a good linguist? Because it is necessary for him to understand all tongues.

For Constipation, Sick or Bilious Headache, use Dr. Pierce's Pellets or Anti-bilious Granules. Purely vegetable. One a dose.

—Ill-fitting boots and shoes cause corns. Holloway's Corn Cure is the article to use. Get a bottle at once and cure your corns.

—Speaking of music, the favorite tune of the gentle maiden will soon be Neptune.

—If your children are troubled with worms, give them Mother Graves' Worm Exterminator; safe, sure, and effectual. Try it, and mark the improvement in your child.

—O. E. Comstock, Caledonia, Minn., writes:—"I was suffering the most excruciating pain from inflammatory rheumatism. One application of *Dr. Thomas' Eclectric Oil* afforded almost instant relief, and two bottles effected a permanent cure."

—Christian scientist—"Do you believe in spirits?" Kentuckian—"Don't kner ef I do."

—What Toronto's well-known Good Samaritan says: "I have been troubled with Dyspepsia and Liver Complaint for over 20 years, and have tried many remedies, but never found an article that has done me as much good as Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure." CLARA E. PORTER.

—There is no reason in the world why a baby shoe should not be a howling success.

—Among the pains and aches cured with marvellous rapidity by *Dr. Thomas' Eclectric Oil*, is ear-ache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are especially subject.

—Agent—"Is your new house a Queen Anne?" Owner—"Yes; Queen Anne in front and Mary Ann in the rear."

—There is a wide difference between medicines which effect merely the symptoms of disease and those which affect its cause. The first are useful as palliatives, the second, if of genuine efficacy, produce a radical cure. To the latter class belongs Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Thoroughness of operation is its special attribute in all cases of Biliousness, Costiveness, Indigestion, Kidney Complaints and Female Weakness.

—There is a time in every man's life when he thinks there is nothing sweeter under the sun than somebody's daughter.

An Unhappy Home.

"I wish my wife would get well—*something*," said a husband who had been sorely tried with an invalid wife. It seems a heartless speech, but who can tell the discomforts of a home where the wife is always sick. Poor food, crying children! No wonder the man grows desperate. But if he could get Dr. Pierce's Favorite Prescription for the wife, he would find that the sunshine would return to his home. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus or falling of the womb, weak back, female weakness, anteversion, retroversion, "bearing down" sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat." Je-13-2t.

Heeded Not Wisdom's Voice.

Adversity is a hard taskmaster, but the lessons he teaches sink deep into the mind, observes the Seattle *Times*. The business portion of Seattle is in ashes. Why? Because we did not observe those precautions which we should have observed, and without which no city is secure. However, when the remedy is past the grief should be ended, and it is no use of crying over spilt milk. We have paid for our experience; paid dearly for it; now, like shrewd business men let us get the full value for our money, so that in times to come we may say: Well, it cost us a good deal, but we have got more than value received for every dollar that went up in smoke on that memorable sixth day of June.

Outlery.

M. & H. A. Fox have just received direct from Sheffield a large stock of table and pocket cutlery, scissors, etc. Shaving outfits a specialty. Call and examine at 78 Government street.

COMPANY (LIMITED),

Beg to inform the citizens of Victoria and public generally, that all orders for Castings, Boilers or other work in their line, will not only meet with prompt attention, but that in addition to reasonable rates (including free delivery in Victoria), they are also prepared to guarantee their work as equal, if not superior, to any to be had elsewhere in the Province. Having appointed ANDREW GRAY, Esq., (Victoria Machinery Depot) as their Agent in Victoria, with full power and authority to quote prices, receive orders and enter into contracts in their name. All parties desirous of further information are respectfully requested to apply to him on the subject.

R. P. COOKE, President.

THE BRITISH COLUMBIA FIRE INSURANCE COMPANY.

TAKES RISKS ON THE CASH OR MUTUAL PLANS.

As this is a Home Company, organized by British Columbians for the two-fold purpose of giving cheap insurance and keeping the money in this Province, it commends itself to the support of every insurer desiring the prosperity of this country.

In Ontario, the system of insurance, which is similar to that adopted by this Company, has been highly successful operation for the past fifty years, and it has proved to be a great advantage to every insurer in it, by reducing the cost of insurance, and it is estimated that now three-fourths of the insurance effected in Ontario is carried by mutual companies.

BOARD OF DIRECTORS.

N. SHAKESPEARE, ESQ., P.M., President, Victoria, B.C.
WM. WILSON, ESQ., Merchant, Vice-President,

SEALED TENDERS addressed to the undersigned, and endorsed "Tenders for Post Office, Vancouver, B.C.," will be received at this office until Saturday, 22nd June, 1889, for the several works required in the erection of Post Office, at Vancouver, B. C.

Specifications can be seen at the Department of Public Works, Ottawa, and at the office of the Collector of Customs, Vancouver, on and after the 10th of June, 1889, and tenders will not be considered unless made on forms supplied and signed with actual signatures of tenderers.

An accepted bank cheque payable to the order of the Minister of Public Works, equal to five per cent. of amount of tender, must accompany each tender. This cheque will be forfeited if the party decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order

A. GOBEIL, Secretary.

LOCAL PARAGRAPHS.

News of the City and Province Briefly Told.

—Ice Cream at Stein's.

—Zylonite collars and cuffs at Daley's 111 Government street.

—The Mexico sails from San Francisco to-morrow for this port.

—Steamer Idaho will leave Portland for this city on Saturday next.

—The electric light committee will meet this evening at 7:30 o'clock.

—The Ancon, bound for Alaska, is due here from the Sound in the morning.

—The bark Bowers came out of the dry dock this morning thoroughly repaired.

—"Hose-patches," a sure cure for leaky garden hose, at McLennan & McFeely's.

—A quantity of interior furnishings for the new law courts have arrived from the east.

—The magnificent steamship Corona is to go on the Alaska route within a short time.

—Rapid progress is being made with the new brick building next to the Poodle Dog.

—A carload of stoves to select from at McLennan & McFeely's, opposite the "Poodle Dog."

—Ice cream delivered to all parts of the city. New England Bakery. Telephone call 161.

—"Lignomur," the latest and most artistic wall decoration, at John Weiler's 51 to 55 Fort street.

—Extensive alterations and additions are to be made to the residence of Henry Young, James Bay.

—A large Taylor safe for F. G. Richards, Jr., arrived from the east last night. It weighs 5500 pounds.

—Taking advantage of the lovely weather, bathing at Foul Bay is being indulged in by families.

—A great deal of blasting is now going on in front of St. John's Church for a trench for a wooden drain.

—The new church for St. Andrew's Presbyterian congregation begins to look imposing with its massive brick walls.

—The San Francisco *Call* is authority for the statement that the Swiftsure will visit San Francisco in about two weeks.

—H. M. S. Champion was seven days out from San Francisco at 4 p. m., and there were no signs of her at that hour.

—Two miles of new electric light wire have been strung within the past few days, and one mile remains to be strung.

—June issue, British Columbian Magazine, is at bookstores and Daily's Bazaar. Everyone should buy this handsome number. 1mo.

—Mr. G. Mesher has received the contract for Mr. A. A. Green's new residence. The figure is in the neighborhood of $20,000.

—Look out for the advertisement of sale of lots in the town of Seattle, at Mission Bridge, B. C., on June 15th, by F. G. Richards, Jr. *td

—The annual Sunday School picnic of the Methodist churches in the city will take place on July 1st at the beautiful Colwood Plains.

—The genial editor of the *Bulletin* and a friend to day enjoyed a drive through Saanich. They will return this evening from their outing.

—The Seattle *Press* remarks that it has been so long since the saloons closed that the natural color is returning to many familiar noses.

—Visitors before leaving for home should have their photos taken at Hall & Lowe's, Government street, where they are sure to get the best. *

—Temperance Hall, Esquimalt was the scene of a pleasant gathering last night of members of the Blue Ribbon Club of this city and Esquimalt.

—The repairing and repainting of the Olympian is progressing as fast as possible at Tacoma. She will not go into service again until about July 1st.

—The advance in the price of bricks noted in a recent issue is not general. One of the principal brickyards has a large quantity for sale at $8 per 1000.

—Another deer has been added to the Park, the gift of Mrs. Capt. Meyer. Two chameleons from the *World* office, Vancouver, might be sent down as oddities.

—The time for receiving tenders for a brick business block at the Northwest corner of Yates and Douglas streets will expire at noon on Saturday. John Teague is the architect.

—Personal. If that lady will again call at the Lansdowne House, Yates street, she will find the *Hat* required, as Partridge has just received six dozen direct from New York. *2w

—A gentleman in Seattle who lost everything by the fire, to-day telegraphed to a friend in this city for a sum of money. The request was granted without a moment's delay.

—A carload of Antique Oak Bedroom furniture, latest designs, handsomely carved, also Walnut Roll Curtain and other office desks, just received by John Weiler 51 to 55 Fort street. *

—It is stated that Modjeska declined to play in Vancouver on account of the theatre being too shabby for an artist of her renown. A box with a hole cut in it for a stage, re-lept the Imperial Opera House, is what thestrical people term it.

—The sale of the Central Hotel to Messrs. Halleck & Howe has been practically effected. The purchase price is said to have been $8,000. Mr. Osterhout expects to leave shortly for Toronto, while Mr. Kennedy has not finally decided upon future plans.

—Mr. C. E. Riggins, Beamsville, writes, "A customer who tried a bottle of Northrop & Lyman's Vegetable Discovery says it is the best thing he ever used; to quote his own words, 'It just seemed to touch the spot effected.' About a year ago he had an attack of bilious fever, and was afraid he was in for another, when I recommended this valuable medicine with such happy results." *

—A concert and organ recital will be given in Calvary Baptist Church to-morrow (Tuesday) evening, commencing at 8 o'clock. A first class programme will be rendered, including instrumental solos by Prof. Sharpe on the new Grand Estey church organ lately purchased from the manufacturers through their Victoria agents Messrs M. W. Waitt & Co. Admission 25 cents. *

—A number of German, Dutch, Swedish and Scotch emigrants passed through the city last night for Tacoma. The Scotch emigrants, who were booked for Tacoma, were under the impression that the city of destiny was in British Columbia, and as they desired to settle in British territory, they were not a little astonished when they learned, on coming over on the Islander, that they were ticketed for Mr. Turner's country.

POLICE COURT.

(Before Hon. A. R. Richards, Q. C.)

John McCluskey was charged with obtaining ten cents under false pretences from J. Malcolm, bartender of the Colonial Hotel, Johnson street.

The complainant stated that defendant was shaking dice for drinks with five others. Defendant paid for the drinks three or four times. He paid a two dollar bill and received back $1.50. A dispute arose over the amount paid and defendant took ten cents off the bar.

Supt. Sheppard said he was in this city for 27 years and this was the first paltry case over ten cents that ever came up in the police court. The man spent money in the place and was arrested on the complaint of the barkeeper. The whole proceeding was ridiculous.

His Honor decided that the case was not proven and dismissed the defendant.

Arrived.

Ean XXXX Ale (Lamb's Wooll) at the Occidental Hotel bar. *

Children Cry for Pitcher's Castoria.

Dr. Chitide Pile Ointment

Instantly relieves and permanently cures piles, pruritus and all hot and itching sores and eruptions. Price, $1, of druggists. dew

Dinner.

Lieut.-Governor and Mrs. Nelson had a dinner party on Monday night to meet Sir Leonard Tilley. Among those present were Hon. A. N. Richards and Mrs. Richards, and the Hon. J. Robson and Mrs. Robson. On Wednesday night a second dinner was given, when Col. Prior and Mrs. Prior were present.

New Residences.

Notwithstanding the large number of residences going up all over the city, houses continue in demand. Four lots were sold by Mr. Richards on Rithet street, Beckley Farm, James Bay, last week, and yesterday ground was broken on them for five new residences.

Mr. Wm. Munsie and Mr. Fred Carne, jr., are building $5,000 residences.

Hay Making.

The appearances throughout the district are in favor of a heavy crop, perhaps larger than we have seen for a number of years. The present fine weather has matured the crops and cutting will be in full swing in the course of a few days. Everything in the way of vegetation looks well, and bountiful crops will reward the farmers everywhere.—*Guardian.*

Victoria Building Society.

The sixth drawing for an appropriation in the Victoria Building Society was held at Harmony Hall last evening, and resulted in shares Nos. 218 A and B, being successful. These shares are held by Mr. and Mrs. James McIntosh. (Shares No. 218 C and D were not taken up.) The following gentlemen conducted the drawing: Messrs. O. A. Lombard, J. Barron and Alex. McLeod.

Moonlight Picnic.

The local lodge of Good Templars held a moonlight picnic last evening at Sailor Bay. Captain W. R. Cadman took charge of the large boat which conveyed thirty-eight members to the picnic ground. Sister Swan acted as pilot and brought the huge vessel in safety to the sandy beach of Sailor Bay. At 11 o'clock the party returned to the city after thoroughly enjoying the outing. Moonlight excursions of a similar kind will be enjoyed by the young people during the summer.

For the South.

The Queen of the Pacific having been detained on the Sound, will leave this evening for San Francisco with the following passengers from this city: Chas. Clare, A. H. Solomon, Miss M. A. Sperry, Miss B. S. Sperry, Mrs. A. Levy, Eli Lequime, Miss N. A. Webb, H. B. Tiedeman, A. H. Edwards, M. Cowan, T. S. Gore, Mrs. C. Desmonde, Mrs. Geo. Wise, J. M. Douglas Jr., Capt. R. T. Merriman, E. Burley, I. Braverman, D. Cartmel, Miss M. T. Beckman, W. J. Innes and wife.

Nanaimo Licensing Board.

Ald. J. Mahrer, of Nanaimo, is building a three storey brick building in that city to cost $30,000. At the sitting of the Licensing Board, held in Nanaimo yesterday, the Alderman had a petition before the Board to sell liquor in the new building. Although a requisition bearing 291 names against granting any new liquor licenses was presented to the Board, the Licensing Commissioners granted Ald. Mahrer's application and two other applications.

Few of His Kind.

A business man and financier of the first rank in Boston is so absent-minded that he occasionally forgets to go to his dinner. His customary hour for his meal—when he remembered it—is two o'clock. The other day, quite absorbed in business, he worked steadily on until 4 o'clock, and then began to have a quite natural sense of emptiness and yearning in the stomach. "Dear me," he said, applying the flat of his hand to his waistcoat, "I wonder what I ate for dinner that disagreed with me!"

Death of a Pioneer Lady.

Mrs. Jane Augusta Pemberton, beloved wife of Hon. A. F. Pemberton, expired at the family residence, Glenville, Fairfield road, Wednesday evening, from paralysis. The deceased lady was a pioneer resident of this city having resided here for 35 years and was widely known, although of a retiring disposition. She was a native of County Clare, Ireland, and in her 62nd year. A husband, son and daughter remain to mourn her demise. The funeral will occur to-morrow afternoon at 2:30 from the family residence and at 3 o'clock from the Reformed Episcopal church.

Annual Communication.

The 18th annual communication of the Most Worshipful Grand Lodge of British Columbia, Ancient, Free and Accepted Masons, will be held in this city on the 22nd inst. This meeting will be one of the most important in the history of the order in this province. The attendance will probably be larger than at any previous meeting. Westminster will furnish 16 delegates, Vancouver 14 and Kamloops 6. Arrangements have been made with the C. P. N. Co. for rates at one first class fare for the round trip from Westminster or Vancouver for Masons, their wives and families. Tickets will be good from the 21st to the 26th inclusive. A large banquet is proposed for one of the evenings which will probably be held in the Assembly Rooms, Fort street.

A Fruitful Country.

Mr. M. Lumby arrived in the city on Tuesday night from Enderby, Spallumcheen, where he has one of the most beautiful farms in the province. In conversation with a reporter Mr. Lumby said that the crops are exceptionally good this year. In this rich country everything seems to grow well in the shape of fruits, grain, vegetables, &c. Fruit trees put out three years ago will yield a good crop this year. Water melons could be grown in abundance and also grapes. Down in the Okanagon country a party informed Mr. Lumby that he had grown such a crop of peaches last year that he could make no use of them and they were allowed to drop on the ground and rot there.

The great drawback to this country is the lack of communication and facilities for getting produce to a market.

In reference to the railway Mr. Lumby says work must be commenced this fall. Capitalists who propose to put their money in the enterprise will arrive within the next few months and go over the country and see it themselves.

Eli Perkins.

Listening to Eli Perkins last night, and noting with some little attention the conversations he drew between humor and wit, etc., we found ourselves trying to classify the gentleman as an intellectual manifestation. Was he a humorist, or was he a wit, and clever at adapting incidents to point a moral to adorn a tale. We were puzzled. Notwithstanding his expose of the qualities which distinguish humor from wit, we found it impossible to apply his dictum to his case. If we must put ourselves on record as a sizer-up of Eli we had sooner rate him a wit with strong moral bias. Humor is subtle, wit is rank. Eli is rank; he therefore cannot be a humorist. Although it must be admitted that rankness does not imply wit, We had thought to use a syllogism to prove that Eli was a wit, but we suspend this feature, resort to plain English and call him a genial liar. This is as a high a compliment as we can pay Eli. It is in fact as good a certificate of character as he could possibly ask for professional purposes. A liar, whatever his degree, must possess imagination, syllogistically, therefore, Eli as a liar is possessed of sufficient versatility and volatility to make him a valuable machine for the procreation of mirth. But we ask ourselves is not his inner life a sad one? Does he not sometimes hunger and thirst for a fresh joke? This is the saddest feature of a joker's life. It is a serious matter, this manufacture of jokes. *Au revoir*, Eli.

For the Warm Weather.

A number of family, hotel, and canning Refrigerators just received at McLennan & McFeely's, 70 Yates street. *tf

Forwarded the Money.

Mayor Grant to-day sent a draft for $1000 to J. R. Lewis, chairman of the Seattle Relief Committee, being the amount donated by the city council at its last meeting.

Marriage.

Just as the Rev. Mr. Starr was going out last evening about 7.30, a couple drove up wishing to get married. The Rev. gentleman complied with their wish. The parties are Arthur William Bailey and Miss Nellie Watkins, both of Seattle.

A Long Ride.

W. J. McKay, a compositor lately employed in THE TIMES office, left Nanaimo at one o'clock yesterday afternoon on a bicycle. He intended to wheel it to this city, if everything was found favorable. Up to four o'clock there was no sign of the cyclist.

Athletic Club Picnic.

Members of the Victoria Athletic Club will hold a picnic at Langford Plains on Sunday, June 23. The members will hold a meeting to-morrow evening to make all arrangements for a good time in the country. A large number of members of the club will attend the picnic.

Contributions.

The Baptist congregation collected the sum of $66, which has been equally divided between the two funds, Johnstown and Seattle. The boarders at Mrs. Mason's, on Fort street, contributed $43.50 and the Methodist church $168, both of which have been remitted by Mayor Grant.

The Batterryman Never Returned.

On Monday last a young stranger applied for admission as a member of "C" Battery. He passed the examining board and was sworn in. Since that time he has been missing, and it is supposed that he regretted the step taken when he joined the Canadian Army. Report says that he is at present on the American side.

Funeral.

The funeral of George Carrier took place this afternoon from his late place of residence, Church Hill, where services were read by Rev. Donald Fraser. A number of personal friends of the deceased were present to pay their last respects to his memory. The pallbearers were G. A. Sargison, M. Lumby, W. Wilson, C. E. Perry, J. Bland, and J. Montague Leet.

D. Chisholm, M. P.

Every day the cheering news arrives that our respected member, Mr. D. Chisholm, is rapidly regaining his health and strength. It is now announced that he will leave for Banff in a few days, at which place he will probably spend a couple of months before coming home. Mr. Van Horne has, with great courtesy, placed a private car at Mr. Chisholm's disposal, which will do away, to a great extent, with the fatigue of the journey.—*Columbian.*

Recovering Lost Coin.

At the historic battle of the Nile, ninety years ago, Admiral Nelson sank the French flagship L'Orient. On board the vessel was £600,000 in specie. Although its presence was well known no attempt has ever been made to recover it. A company has been organized, however, in Paris for the purpose of recovering the coin. The location of the wreck is well known, and it is considered that there is no intrinsic improbability of success.

The London Times.

The *Times* is already anticipating a terrible defeat at the hands of Mr. Parnell and his friends, for it is stated, "in view of the costs in the many libel actions with which the *Times* has saddled itself, that it has now reduced its leading articles from four to one or two daily on most days of the week." This is sad for the *Times*, but it is sadder still for those who swear by it, and who, like Sir Matthew Begbie, think it is the one only paper. Sir Matthew will have to take to the colonial press to preserve his own self-respect and self-esteem.

The New Town.

Several lots were sold yesterday in the town of Sumas. Few of the readers of the TIMES are probably familiar with the Valley of the Nooksack and Sumas Rivers, just beyond the borders in Washington Territory, in the very centre of which, and within a short distance of the boundary line, the new townsite of Sumas has been established. Sumas will be the town at which transfers from American territory on the coast to the Dominion of Canada will be made on the lines of the Canadian Pacific, the Bellingham Bay and British Columbia and the Seattle, Lake Shore and Eastern railways making it, in short, the headquarters for no less than three important lines of railway. This, of itself, without any dependence on the magnificent country, will make Sumas an important centre. The valley is about 50 miles in length, and ranges from 12 to 10 in width, and possesses a climate phenomenal in mildness and healthfulness; a soil great in its fertility; soft, pure cold water in wells; springs and clear flowing mountain streams. Sumas bids fair to become a city of commercial importance.

Corner Stone Laying.

The ceremony of laying the corner stone of the new St. Andrew's Presbyterian Church, Vancouver, took place on Tuesday afternoon. There was a large number of persons present, and among those on the platform were: Rev. Mr. McLaren, pastor of the church, Rev. Messrs. Robson, Scouler, Maxwell, Pedley, Kennedy, Messrs. J. M. Browning, Dunn and others. Seats had been placed on the foundation for guests and the choir. Proceedings were begun by singing the One Hundredth Psalm. Rev. Mr. McLaren then read several portions of scripture and offered up a prayer. A tin box containing the current coin of the country, names of the officers of the church, copies of the daily and other papers, and a number of other articles was then laid in the cavity of the stone, after which Mr. Browning, being presented with a silver trowel and a mallet, laid the stone in true and formal manner. Mr. Browning then gave a brief historical sketch of the congregation of St. Andrew's Church since its origin last July. He traced the steady growth of the church till the present time, and attributed its success largely to Rev. Mr. McLaren. The new building, he said, would cost about $22,000, of which $5,500 had already been raised.

PROVINCIAL COURT.

(Before Robert Ward, J. P., and H. E. Crease-dale, J. P.)

Henry, a Saanich Indian, charged with having liquor in his possession near Swan Lake, pleaded guilty and was fined $50 and $8 costs or three months.

George and Smith, two Indians, for being found drunk on the reserve, were fined $10 each or two weeks.

Capt James and six other Indians were charged with stealing a lot of metal from the old steamer Otter. J. P. Walls appeared for the accused, and M. W. T. Drake, Q. C., for the prosecution. A number of witnesses were examined, when the magistrate, Robert Ward, Esq., J. P., decided to remand the case till Monday next, Capt. James and two Indians being remanded without bail, and the other four Indians allowed out on their own recognizances of $200 each.

Children Cry for Pitcher's Castoria.

DIED.

PEMBERTON.—At Glenville, Victoria District, on the 12th inst., in her 62nd year, Jane Augusta, the beloved wife of Hon. A. F. Pemberton, and fifth daughter of the late Tomkins Bew, of Riverston House, County Clare, Ireland.

The funeral will take place to-morrow (Friday), at 2:30 p. m., and at 3 o'clock from the Reformed Episcopal Church.

The Mayor's Remuneration By-Law
Whereas under and by virtue of the Municipal Act, 1889, it is enacted that the Council of every Municipality may from time to time make, alter or repeal By-Laws for (inter alia) paying the Mayor out of the annual revenue a sum of money not exceeding $2000;
Be it therefore enacted by the Municipal Council of the Corporation of the City of Victoria as follows:—
1. There shall be paid to the Mayor for the time being of the said City of Victoria out of the annual revenue of the said City the sum of two thousand dollars ($2000.00).
2. This By-Law may be cited for all purposes as the "Mayor's Remuneration By-Law, 1889."
Passed the Municipal Council, the 23rd day of May, A. D. 1889.
Reconsidered and finally passed the Council, this 12th day of June, A. D. 1889.
[L. S.] JOHN GRANT,
Mayor.
